

Critical Information Summary

Information About the Service

The service

GetGud delivers high-speed broadband services to select Properties via wireless or wired technologies on a month-by-month contract.

The Service will only work in a Property which has been enabled for use with GetGud internet.

Availability

GetGud only operates in specific Buildings. Installation outside of enabled Buildings is not possible.

IP Addressing Allocation

GetGud allocates dynamic CGNAT IP Addressing in the Shared Address space of 100.64.0.0/10 as per IETF RFC 6598 unless otherwise selected.

Important Conditions

- To use our network you need to be located within an enabled building
- Outside of our enabled buildings we are unable to provide network or internet services
- Your choice of modem/router, and how you set it up within your premises, could limit you from utilising the maximum speed of your broadband plan. This may include setting up additional devices for extended coverage. Contact support for further guidance.
- The fibre network termination device (NTD) must not be removed from the premises. If this device is interfered with or removed, you may encounter additional charges. Refer to "Other Charges" section of this document.

Use of Network

- Commercial Use, Business Use, Resale, on-selling, bundling, sharing or external access (including free Wi-Fi stations under accounts) is not permitted.
- Devices connected to our network will not be permitted to directly transmit data between each other except via the public Internet.

Actual throughput speeds may be slower and could vary due to various factors. Testing of speed can be made at any time by visiting <https://fast.com>.

Information About Pricing

Minimum Monthly Charge

GetGud plans are for a monthly period paid in advance. All plans will automatically renew unless

cancelled via the GetGud Portal or by contacting the GetGud helpdesk before the time of renewal. Not all plans are available at all locations.

NOTE: At some locations a connection fee from the carrier will be passed through at cost. A once-off \$330 inc GST VostroNet™ New Development Charge may apply if your premises is identified by VostroNet™ as being within the site boundary of a new development. Any costs associated with carrier connection fees will be stated at time of sign up.

Maximum Monthly Charge

All plans include unlimited data and therefore the maximum monthly charge will not exceed the amounts referred to above.

Auto Renewal of Plan

On the same day of each month, you will be billed in advance for the minimum monthly charge. Your invoice will be sent to the account holders email address once the transaction has been completed.

Early Termination Charges

GetGud does not charge an Early Termination Charge (ETC) when cancelling a plan.

Changing Plans

GetGud plans can be changed via the GetGud Portal. You may change your plan to a different value plan at any time during your term for immediate use or scheduled for the next term period. Any new plan selected with a higher value will incur the cost associated with the selected plan.

Other Charges

If the account holder has lodged a fault causing the dispatch of an onsite technician and no fault can be found or the fault is caused by the customer's equipment, a fee of \$250.00 (Ex GST) may be charged to the account holder by GetGud. This fee does not include complex installations, replacement equipment (where required) or consulting.

Additional Information

Enquiries, feedback and complaints

GetGud aims to provide extraordinary technology services and support of our network.

Please contact GetGud Support at support@getgud.gg or 02-7253-4400 if you have any questions, would like to give feedback or complain.
